

BALLISTOL MULTIFUNCTIONAL GARAGE OIL

Product Features

Protects against corrosion, preserves, cleans, lubricates, serves as contact spray and rust remover

Special Features

Exceptionally high rust protection

Used by well-known automobile manufacturers: tested according to DIN 50 021-SS (salt spray test)

Cleaning: Cleans dirty, oil-covered metal parts, removes flash rust and cleans foreign particles

Lubricating: Keeps moving parts running smoothly. Maintains chains, sprockets, ball bearings, hinges, telescopic cables, etc., prevents mechanical wear

Protecting: Reliably protects iron, steel and non-ferrous metals from corrosion, even in extreme weather conditions

Application / Practical Tips

Shake well before use

Vertical surfaces can be treated without problems as well

Available as	art.no.
Spray 200 ml	22950
Spray 400 ml	22960
500 ml	22970
5 litres	22980

Physical and Chemical Characteristics

Appearance: oily, brownish

Odour: of petroleum

Relative Density: approx. 0.86 g/cm³

Lower Explosion Limit: approx. 1.5 Vol-%

Upper Explosion Limit: approx. 10.9 Vol-%

Viscosity kinematic: approx. 21 mm²/s

Temperature Application Range: -30 °C to app. 190 °C

Hazard Statement

Liquid: May be fatal if swallowed and enters airways. Harmful to aquatic life with long lasting effects.

Spray: Extremely flammable aerosol. Harmful to aquatic life with long lasting effects. Pressurised container: May burst if heated.

Important Product Advantages

- With valuable CLP properties
- Releases seized mechanical parts
- Strong surface adhesion
- Used by well-known automobile manufacturers, also for electric cars
- Lubricates and protects permanently
- Also proven as cutting oil
- Does not resinify, does not get sticky
- Low-friction
- Capable of creep
- Free of materials of animal origin
- Free of silicone, PTFE, acids and resin
