NEO-BALLISTOL HOUSEHOLD REMEDY

Product Features

High-quality care oil for almost every part of the human skin, tried and tested for over 80 years

Special Features

Allergologically and dermatologically rated "very good" (source: www.ballistol.de).

Also regenerates joints, tendons and muscles

Strictly controlled production according to pharmaceutical quality

Basis is medically pure white oil in combination with proven, natural active ingredients - therefore no harmful side effects known

Application / Practical Tips

Rub in, brush in, massage in or apply an impregnated dressing as required.

Correct use on children: Neo-Ballistol should always be applied to children by adults. It is not suitable for infants under 2 years of age (possible respiratory distress due to peppermint oil).

Once also approved for internal use - formulation unchanged since then, so accidental ingestion is safe
Do not bring into contact with the eyes
