

Product information

IT WORKS.

BALLISTOL ANTIQUE BRASS DYE NEROFOR

Product Features

Ideal for all copper alloys to create an "antique look" within minutes.

Special Features

Odourless pickling solution for non-ferrous metals
Gives an antique look to the workpiece
Light yellow brass surfaces turn dark brown
Application time determines the hue
Watery solution

Application / Practical Tips

Before application, grind the desired parts with finest steel wool or abrasive fleece and degrease (e.g. with Ballistol Cold Degreaser).

Apply the solution with a brush or immerse the workpiece. After a few minutes of exposure time, rinse the metal thoroughly with warm water.

For deepening the colour, finish with some oil or beeswax.

Available as

50 ml

1 litre

art.no.

25890

25900

Physical and Chemical Characteristics

Appearance: blue liquid

Odour: odourless

pH value: approx. 1.25

Relative density: 1.22 g/cm³ 20 °C

Solubility in water: can be mixed as required

Hazard Statement

Harmful if swallowed. Causes severe skin burns and eye damage.

Very toxic to aquatic life, with long-term effect.

Important Product Advantages

- Can be diluted with water
- Only a few minutes of exposure time
- The desired hue can be achieved by adjusting the application time
- Not suitable for pure silver (sterling silver) or other precious metals
- For all copper alloys and nickel silver
