BALLISTOL RIM CLEANER

Product Features

Extremely powerful gel cleaner with active indicator for all types of rims

Special Features

Also suitable for TPMS (tyre pressure monitoring systems)

Cleaning status is indicated by colour change

Foams up during spraying

Tested material compatibility, suitable for all rims (steel, mirror-polished aluminium, multi-part, matt)

Neutral towards rubber and coated surfaces

Odour-reduced, acid-free and biodegradable

Application / Practical Tips

Removes stubborn dirt such as brake dust and oil and rubber residue, automatically and highly effectively

Removes light rust films

Thoroughly spray rims from roughly 30 to 40 cm and leave to soak for 2 to 6 minutes, then rinse away thoroughly

If used regularly, the rim cleaner can be diluted for minor soiling

Do not apply in the sun, do not allow to dry out

Available as

750 ml

5 litres

art.no.

25085

25438

Physical and Chemical Characteristics

Appearance: viscous, orange

Odour: product-specific

pH-value: 5,5

Relative Density: 1.11 g/cm³

Viscosity Kinematic: approx. 19 mm²/s

Solubility in Water: miscible

Hazard Statement

Harmful if swallowed.

May cause an allergic skin reaction.

Causes serious eye irritation.

Contains <5% non-ionic, amphoteric surfactants, phosphonate, 2-phenoxyethanol and perfume.

Important Product Advantages

- Extremely powerful
- Gentle on material
- Self-acting with action indicator
- Odour-reduced
- Acid-free
- Biodegradable
- Neutral towards rubber and coated surfaces
- Also suitable for TPMS
- Contained oxygen produces even better results
